EDUCATION

University of Southern California, Viterbi School of Engineering — Los Angeles, CA

Bachelor of Science in Computer Science and Business Administration — Spring 2028

Relevant Coursework: Data Structures, Object-Oriented Programming, Statistics & Data Science for Business, Advanced Operations Management & Modeling, Communication Strategy in Business

WORK EXPERIENCE

Capital Group — Los Angeles, CA

Business Transformation Summer Associate (Equity Portfolio Strategy Management) — June – August 2026

- Developed a Power Automate solution that centralized information from Microsoft Teams channels, emails, and Microsoft Lists, eliminating manual data collection and saving 3 hours per office daily
- Partnered with the portfolio team to identify inefficiencies in the global office handover process, using Visio to map workflows and uncover redundant tasks consuming 13% of each associate's time
- Redesigned the handover process and reporting structure for portfolio teams across 5 global offices, improving consistency and operational continuity across time zones

Verv Energy — Los Angeles, CA

Intern — May – August 2025

- Researched potential investors, wrote proposals and prepared pitch decks resulting in 3 new six-figure partnerships
- Analyzed 1,000+ AWS data files and built performance models that uncovered latent issues across multiple locations that were successfully remediated
- Designed client-facing reports and interactive data visualizations (Python, HTML) highlighting the high efficacy of Verv devices

Waymo — Los Angeles, CA

Scholar Fellow — November – December 2023

- Analyzed cross-departmental data and presented strategic recommendations for energy optimization
- Diagnosed system and performance issues during 300+ miles of autonomous vehicle testing in Los Angeles
- Shadowed daily operations of different departments (Product Management, Engineering, Marketing, Policy)

LEADERSHIP AND INVOLVEMENT

Los Angeles Public Library Adult Literacy Services — Los Angeles, CA

Teacher — March 2026 – Present

- Lead 2 weekly 90 minute classes on English Literacy and Computer Skills, teaching ~50 students/ month
- Create and adapt curricula to students' evolving needs and widely varying skill levels

AthenaHacks — Los Angeles, CA

Organizer & Marketing Team Lead — August 2024 – Present

- Lead a marketing team of 8, growing hackathon applicants from 80 to 300 (3.75x) through social media campaigns designed in Figma and Canva
- Manage internal productions (sponsorships, workshops, overseeing budget of $35k, merchandising)

Peking University, School of Advanced Computing — Beijing, China

Research Program — June – July 2025

- Explored operations optimizations of Microsoft and Li Motors during facility tours
- Delivered final research presentation to faculty and peers on AI development
